FEATURES

Where international, state, and/or county boundaries coincide, the map shows the boundary number for only the highest number of those boundaries.

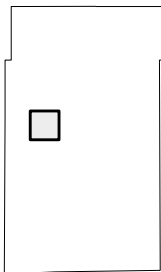

¹ A '°' following a place name indicates that the place is also a false MCD;

² In 1990, the crews-of-vessels population of ships at sea was allocated to census tracts with a '99' suffix. An anchor symbol appeared on the 1990 maps locating a crews-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.
